

Active911 Visual Designer / UI/UX Designer

We are looking for one or more super creative, hard working designers who want to work on a team of brilliant people and help make the world a better place! You'll live and work in Oregon's Willamette Valley, 50 minutes from the Pacific Ocean and close to skiing, kayaking, and mountain hiking. The Pacific Northwest is green year-round besides being the micro brewery capital of the world and home to a lot of smart folks.

Active911 is a small company, so we will be relying on you to provide creative direction and design in a wide range of mediums, including UI/UX, branding, promotional, and internal projects. Programming experience not necessary (we have a development team for that).

- Salaried, full time position
- Health insurance through PacificSource
- Fitness plan / Gym
- ~ 8 paid holidays per year
- 10-12 paid vacation days per year increasing at 1, 2, 5, 10, and 15 years
- Retirement plan
- Relocation assistance

Some college is a plus, but a degree is not required. What we mostly care about is how good you are, and what your work ethic / personality is like. We want someone who LOVES creative design, who does it because it is fun and not because it is a job. Here's what you'll look like, as our ideal candidate:

- *You create in your off hours, for fun. It's a hobby as well as a living.*
- You probably have other hobbies that are creative/technical or require creative craftsmanship
- You like learning new techniques and being exposed to new ideas
- You're well rounded, probably enjoying music, hiking, or some other unrelated activity

If you are *passionate about being creative* with a good portfolio, please apply. Note that this job is 80% onsite in Oregon. If you are not in the US, we may be able to arrange a visa if your work is good enough.

To apply: send a 1-2 page PDF resume/CV and a link to your portfolio to:
